## Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE one MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136 (a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### *Election/Restrictions*

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group 1, claim(s) 1-8, drawn to the first technical feature of a plasmid comprising a tightly regulated promoter operatively linked to a nucleic acid that encodes a peptidoglycan-associated lipoprotein of gram negative bacteria.

Group 2, claim(s) 9-10, drawn to the first method of use of the first technical feature comprising producing a recombinant lipidated peptidoglycan-associated lipoprotein.

Group 3, claim(s) 11-15, drawn to the second technical feature of an antigenic composition comprising a recombinant lipidated peptidoglycan-associated lipoprotein.

Group 4, claim(s) 16-17, drawn to a first method of use of the second technical feature, that is immunizing against a gram-negative bacterium..

2. The inventions listed as Groups 1-4 do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or

Art Unit: 1645

corresponding special technical features for the following reasons: The technical feature of Group 1 is a plasmid comprising a tightly regulated promoter operatively linked to a nucleic acid that encodes a peptidoglycan-associated lipoprotein of gram negative bacteria. The technical feature of Groups 3 and 4 are a recombinant protein and as such lack the technical feature of Group 1. Further, the technical feature of Group 1 is anticipated by either of WO 90 02557 (of record in international examination) that teaches a plasmid containing the lac promoter (i.e. a tightly regulated promoter) operatively linked to an isolate nucleic acid encoding the PBOMP-1 protein, which is another name for the P6 protein of the claimed invention. As such, this first appearing technical feature is not "special" within the meaning of PCT Rule 13.2 because it fails to provide a novel contribution over the prior art. Consequently, the inventions of Groups 2-4 lack unity of invention with Group 1.

3. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Any inquiry of a general nature or relating to the status of this general application should be directed to the Group receptionist whose telephone number is (703) 308-0196.

Papers relating to this application may be submitted to Technology Center 1600, Group 1640 by facsimile transmission. The faxing of such papers must conform with the notice published in the Official Gazette, 1096 OG 30 (November 15, 1989). Should

applicant wish to FAX a response, the current FAX number for Group 1600 is (703) 308-4242.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Patricia A. Duffy, Ph.D. whose telephone number is (703) 305-7555. The examiner can normally be reached on Monday-Friday from 9:30 AM to 6:00 PM. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Lynette Smith, can be reached at (703) 308-3909.
